

ACQUISITION POLICY
WORKING GROUP

The purpose of the Acquisition Policy Working Group is to identify and suggest the development of specific procedures, regulations, administrative measures, etc. for use in the Federal acquisition process (cradle to grave). Activities will include all facets of the Federal acquisition process, excluding Federal grants. The goals are to identify opportunities for saving energy in the near term (less than one year) and to specify how these opportunities can be realized. The organizational entity, groups of people, or person responsible for directing, supervising and insuring (through appropriate controls) the execution of programs will be identified. Energy savings and costs will be approximated. Existing administrative constraints impeding immediate action will also be identified and recommendations made to overcome these constraints.
